DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 15-24 and 26-31, drawn to an adhesive composition.

Group 2, claim(s) 25, drawn to packaging tape comprising an adhesive composition.

Group 3, claim(s) 32, drawn to a method for making a product using an adhesive composition.

2. The inventions listed as Groups 1, 2, and 3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature of Groups 1, 2, and 3 is an adhesive composition of a linear tetrablock copolymer S-I-S-I', with a molecular weight (MW) of 205,000 to 225,000 wherein the styrene blocks (S) have a MW of 10-12,000, the S-I diblock has a MW of 130-185,000, the S-I-S triblock has a MW of 145-195,000, and the polystyrene content is in the range of 14 to 16% wt. This common technical feature was found to not define over the prior art *a posteriori* in view of Lechat et al. (WO 02/00806 A2). Due to the lack of a common **special** technical feature the three groups are subject to restriction.

3. A telephone call was made to Donna Holguin on 07/30/2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
